

How to connect to the BibliMags platform to access digital magazines

If this is your first visit, you must first create an account.

From a computer, go to the web page: <http://www.reseaubibliooutaouais.qc.ca/journals-numeriques>.

Click "*Se connecter*" in the *BibliMags* section.

Click Create an Account.

Complete the BibliMags registration form. It is important to note your email and password; they will be useful for any future connections to the BibliMags platform.

Then click on Next.

You have to choose your library from the drop-down menu: Réseau BIBLIO (Outaouais).

You are then asked to authenticate with the identifiers of your library: your user number (library card) and your BIBLIO PIN. Then do Save.

You are now online in the catalog of digital magazines of the BibliMags platform.

Once you have created your account, you can directly access the content with your BibliMags email and password that you chose when you created your account (and not with the IDs of your library).

From your mobile devices (phone, tablet)

Import the BibliMags app into the App Store (IOS) or Google Play (Android) depending on your device.

Open the BibliMags application.

Enter your BibliMags email address and password that you chose when creating your account (and not with your library IDs).

You are now online in the catalog of digital magazines of the BibliMags platform.

You will be asked to complete the authentication process with the IDs of your library (your user number on your library card and your BIBLIO PIN) every 3 months for security.
